

NEW

# CCL STRESSOMATIC MKII

SPECIALISED ENGINEERED SOLUTIONS FOR STRUCTURES

## 250 kN AND 90 kN STRESSING JACKS

Based on the original CCL Stressomatic, the MKII jack has been designed to provide a fast, efficient and cost-effective solution to today's stressing operations.

# WHAT'S NEW?

## EASIER MAINTENANCE

The new Stressomatic MKII has been designed to improve maintenance efficiency. Wedge replacement is fast and simple and needs no specialist tools, keeping your stressing operations firmly on track.

## IMPROVED HANDLING

A new ergonomic design makes the Stressomatic MKII easier to handle. Its slimline profile and the robust, carefully located handle improve manoeuvrability, making light work of the toughest stressing jobs.

## READILY AVAILABLE SPARES

Incorporating the standard CCL XL wedge, the Stressomatic MKII offers uncompromising quality and ensures readily available spares.

## COMPETITIVELY PRICED

Design efficiencies have resulted in fewer components and a refined manufacturing process to enable CCL to produce a high-quality jack at a very competitive price.

FAST AND SIMPLE WEDGE REPLACEMENT

## OTHER FEATURES

- Hydraulic lock-off for safe, efficient wedge seating.
- Anti-roll mechanism prevents dangerous rotation of jack.
- Internal oil transfer to avoid external damage to the transfer mechanism.
- Remote stressing operation possible via pump hand control unit.
- Quick-release connections for screw-type couplings (optional).
- CE Marked.
